EDUCATION

(B.S.) in Web and Information Systems Minor: Business

New Jersey Institute of Technology

08/2015 – 05/2019

Newark, NJ ; GPA: 3.2

PERSONAL PROJECTS

Responsive Portfolio Website (12/2019 – 01/2020)

- Modified a WordPress theme to build out this site using Bootstrap 4, jQuery, Popper.js and Sass
- Applied version control software (Git) to track and update pre-existing code pushed to Github (<https://github.com/aia7/Moviedbproject>)

ReactJS Movie Database (12/2019 – 01/2020)

- Utilized IMDB API to retrieve movie data displaying movie title information using ReactJS.
- Developed the application using Create-react-app with npm for the package workflow.
- Incorporated React Hooks to reuse logical behavior in components

NJIT FAQ BOT (09/2018 – 12/2018)

- Created Test Cases, User Stories, and Technical Specification documentation to provide developers with specific details toward the use, functionality, and architecture of the chatbot
- Developed a Wireframe utilizing Sketch for developers to understand the user flow of the chat-bot
- Utilized agile methodologies using Trello to keep track of small tasks given to each group member per weekly sprint

WORK EXPERIENCE

Remote Jr. Software Developer (Part-Time) LogicomUSA

09/2018 – 08/2019

Scotch Plains, NJ

Tasks

- Updated and Monitored customer data sent to the company's phpMyAdmin database processing queries with MySQL
- Created a Software Architecture Document that provided team members an in-depth overview of how scripts and functions were connected
- Utilized git version control to transfer daily phone call files to the company's main server for processing
